Employment Experience

Earbuds Music / iOS Engineering Intern

Summer 2018

Worked with the iOS engineering team to develop the mobile platform for EarBuds

Eosera Inc. / Network and Web Developer

April 2016 - 2018

Delivered web design and development services as well as in-house network infrastructure and iOS development.

Area64 Productions / Game Developer and Designer

May 2015 - August 2017

Wrote production code, modeled assets, and collaborated design gameplay and interactions for Avalon- an adventure game. I also led the development team for an unannounced project.

Freelance Projects

getyoursnackon

getyoursnackon.com

I developed a responsive website and CMS for the Grammy-nominated mix engineer, producer, and sound designer Tom Norris. The project was completed using HTML, CSS, and JS. I also frequently corresponded and collaborated with management to guide interface design decisions.

Neonatal Heart Society

neoheartsociety.org

I developed the website, designed event branding, and produced a series of promotional videos for the annual event.

PoolDash

pooldash.com

I designed an intuitive UI/UX as well as the logo, website, and brand identity for pool care app PoolDash.

Skills

Design

Sketch 3, Adobe Photoshop, UI/UX Design, Storyboarding/Wireframes, User Stories, logo design, brand identity, copy-text
